4. Ease of Access:- Having run the support desk for Hypnosis For Download, I can tell you first hand, that people have problems with large products and downloads and lose the files or computers crash with everything lost etc etc !!!!

SO ... What we are doing now is putting digital products into secure storage areas and delivering them directly over the internet. Streamed delivery to **any laptop, tablet, mobile phone using login details.** Available anywhere in the world (as long as

phone network or wifi etc.)

The whole process will be simpler and cheaper to deliver

5. Personal Use and Avoiding Embarrassment:- You may not think this is a big one, but it is. If you have an addiction or sexual issue that you want to overcome, and you know there are products out there to help you – it takes courage to actually order them. In the members area, all products of a personal nature are available to you. Nobody knows what self-hypnosis sessions you are using. They are available to all members.
